**RECORD OF INTERVIEW**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicant submits the following as a record of the substance of Telephonic Interviews conducted between the Examiner and the undersigned Applicants' representative. On or about December 15, 2006 the undersigned discussed the status of the Examiner's consideration of the application. Applicants' undersigned representative requested that examination be expanded to cover non-elected species recited in the claims. On or about December 29, 2006 the Examiner and the undersigned representative discussed amendments proposed by the Examiner to place the application in condition for allowance, which were substantially as reflected in the Examiner's amendment that has been appended to the Notice of Allowability.

As reflected in the Interview Summary, on January 6, 2006, the undersigned contacted the Examiner to confirm that the Amendments reflected in the Examiner's amendment appended to the Notice of Allowability would be acceptable and to request allowance of the application on that basis.

Respectfully submitted,

BUCHANAN INGERSOLL PC

Date: February 17, 2006

**AMENDMENT PURSUANT TO 37 C.F.R. § 1.312**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Entry of the following amendment is respectfully requested pursuant to 37 C.F.R. § 1.312. By the amendment, an obvious error in Figures 10A-10D is corrected. Specifically, the codon at nucleotides 829-831 of the sequence illustrated in Figures 10-10D is corrected to read "ATG" and the corresponding amino acid residue at position 277 is corrected to read "met." This correction appears on the sheet containing Figure 10B. The obviousness of the error and the nature of the correction would be apparent to one of ordinary skill in the art from the context of the description in the specification, at least by reference to SEQ ID NO:45, which shows the correct codon and amino acid.

A marked sheet showing the correction in panel B of Figure 10 is shown on the next page. Replacement sheets containing Figures 10A – 10D are also attached.
